

Introduction

ZRC ZeroCoin is a **decentralized cryptocurrency** built on the **Polygon blockchain**, designed to demonstrate that a successful crypto project can be developed with a **zero-budget approach**—without costly marketing campaigns, pre-mining advantages, or investor fundraising. This project is driven purely by the community and its shared vision for a fair and sustainable digital asset

Key Specifications

Blockchain: Polygon MATIC

Token Name: ZRC ZeroCoin

Symbol: ZRC

Decimals: 8

Total Supply: 4.7 million ZRC

Creation Date: February 20, 2025

Smart Contract Address: [0x4dFfF428da65FaFa6ceB6bEadC1Be585D0ecb627](https://polygonscan.com/address/0x4dFfF428da65FaFa6ceB6bEadC1Be585D0ecb627)

Development Philosophy

ZRC ZeroCoin was built using **simple and transparent strategies** to ensure fairness and accessibility. Key principles guiding this project include

No pre-mining or hidden allocations – The token supply is fairly distributed from the beginning

No airdrops or artificial giveaways – Every token in circulation holds real value

Transparent and controlled token release schedule – Preventing inflation while ensuring stability

Low-cost, high-efficiency transactions – Built on Polygon for low fees and fast speeds

With its **limited supply of only 4.7 million ZRC** and a **clear release plan**, **ZRC ZeroCoin** is designed to maintain long-term sustainability while providing real-world use cases and community-driven growth

The Purpose of ZRC ZeroCoin

ZRC ZeroCoin was created to prove that cryptocurrency can thrive without requiring massive funding, ICOs, or marketing campaigns. The project was built using a zero-budget approach while maintaining transparency, fairness, and sustainability

Unlike many projects that rely on hype or speculation, **ZRC ZeroCoin** aims to provide real-world value and impact while remaining community-driven and free from centralized control

A Vision Beyond Finance

The vision of **ZRC ZeroCoin** is to serve as both a meme and a meaningful project, combining humor with a deeper mission. While it embraces the fun and viral nature of meme coins, **ZRC** also aspires to make a difference in the world by supporting charitable causes and ethical initiatives

High-Impact Goals

ZRC ZeroCoin commits to giving back to society and setting a high ethical standard for crypto projects. A portion of the project's profits will be dedicated to

Supporting Gaza and orphans – 6% of all profits will be allocated to charities that provide food, shelter, and education for those in need

Sustainable growth – A controlled token release schedule ensures long-term stability, preventing inflation and reckless distribution

Building a strong, decentralized community – With no central authority or team holding the majority of tokens, decisions are guided by the community

ZRC ZeroCoin is not just another token—it's an experiment in fairness transparency and meaningful impact

Tokenomics

Token Supply and Structure

ZRC ZeroCoin was created with a fixed total supply of **4.7 million ZRC**, ensuring scarcity and long-term value. The **8 decimal** precision allows for microtransactions while maintaining the coin's integrity

Total Supply: 4,700,000 ZRC

Decimals: 8

Blockchain: Polygon MATIC

Smart Contract Address: [0x4dFfF428da65FaFa6ceB6bEadC1Be585D0ecb627](https://polygonscan.com/address/0x4dFfF428da65FaFa6ceB6bEadC1Be585D0ecb627)

Ownership: No central authority; fully decentralized

Token Release Schedule

To ensure fairness and prevent price manipulation, **ZRC ZeroCoin** follows a structured release schedule that balances availability and long-term sustainability

Phase 1: Initial Release 60%

Timeframe: First 12 to 18 months

Percentage Released: 60% 2,820,000 **ZRC**

Purpose: Establish circulation and liquidity

Phase 2: Controlled Yearly Release 4% per year

Timeframe: After the first 1-1.5 years

Annual Release: 4% of total supply 188,000 **ZRC**

Distribution: Released gradually throughout the year to avoid sudden market impact

No Pre-Mining, No Hidden Allocations

ZRC ZeroCoin was launched without pre-mining, meaning no coins were reserved for founders or developers before public availability. This ensures a fair and decentralized distribution process

Transaction Fees & Sustainability

No inflation: Fixed supply prevents devaluation over time

of profit 6% allocated to charity: Supporting Gaza and orphan relief programs

Polygon-based: Transactions are fast and cost-efficient

Technical Specifications

Blockchain & Smart Contract

ZRC ZeroCoin is built on the **Polygon (MATIC) blockchain**, taking advantage of its **low transaction fees, high speed, and security**

Blockchain: Polygon MATIC

Consensus Mechanism: Proof of Stake PoS

Smart Contract Address: [0x4dFfF428da65FaFa6ceB6bEadC1Be585D0ecb627](https://polygonscan.com/address/0x4dFfF428da65FaFa6ceB6bEadC1Be585D0ecb627)

Total Supply: 4.7 million ZRC

Decimals: 8

Security & Transparency

The **ZRC** smart contract was developed with security in mind, ensuring **no central authority can modify, freeze, or increase the supply** once deployed

No Admin Control: No individual can freeze accounts or manipulate the system

Auditable on Polygonscan: The contract is publicly viewable for full transparency

Low Gas Fees: Users benefit from Polygon's efficient network

Transaction Efficiency

Transactions on Polygon are extremely cost-effective, making **ZRC ZeroCoin** suitable for **daily use, microtransactions, and community-driven economies**

Average Transaction Fee: Less than \$0.01

Transaction Speed: Near-instant confirmation approx. 2 seconds

Scalability: Capable of handling thousands of transactions per second

By utilizing **Polygon ZRC ZeroCoin** ensures **low costs and high-speed transfers**, making it practical for everyday use

Roadmap

ZRC ZeroCoin is committed to long-term growth, development, and community-driven success. Below is a structured roadmap outlining key milestones and future initiatives

Phase 1: Foundation & Launch Q1-Q2 2025

Token Deployment on Polygon – Smart contract successfully deployed

Whitepaper Release – Providing transparency and details about the project

Community Building – Establishing a presence on social media and forums

Website Development – Launching an official website with project details

Phase 2: Growth & Adoption Q3-Q4 2025

Exchange Listings – Apply for **ZRC ZeroCoin** to be listed on decentralized exchanges (DEXs)

Marketing & Awareness – Organic promotion to attract users and supporters

Strategic Partnerships – Collaborating with projects that align with **ZRC's** vision

Community Governance – Explore ways to let holders have a voice in decision-making

Phase 3: Real-World Utility & Expansion 2026 and beyond

Charity Integrations – Implementing the **6%** profit donation plan for Gaza and orphans

Ecosystem Development – Exploring potential real-world applications for **ZRC**

Major Exchange Listings – Expanding to centralized exchanges (**CEXs**)

Mass Adoption Efforts – Growing the community and expanding global use cases

This roadmap is **dynamic and community-driven**, meaning new goals may be introduced based on feedback and market conditions

Community & Governance

A Truly Community-Driven Project

ZRC ZeroCoin was built on the belief that **a cryptocurrency should be managed by its community, not a central authority**. Unlike many projects that rely on a small group of founders, **ZRC** is designed to be **transparent, fair, and open to everyone**

Decentralized Governance

Since **ZRC ZeroCoin** has **no pre-mining, no central control, and no reserved supply**, all decisions about its future **should be made by the community**. While there is no official governance system yet, the following principles guide the project

Open Discussions: Community feedback shapes the direction of **ZRC**

Transparency: No hidden allocations or secret developer funds

Fairness: Equal opportunities for all holders—no special privileges

Charity-Focused: 6% of profits go to humanitarian causes Gaza and orphan support

How the Community Can Get Involved

Anyone can contribute to the success of **ZRC ZeroCoin** by

Spreading Awareness: Sharing information and helping the project grow

Providing Feedback: Suggesting improvements and ideas for development

Helping with Listings: Recommending **ZRC** for exchange listings

Supporting Charity Initiatives: Engaging in donation and charity efforts

Future Governance Plans

As the project grows, **ZRC** may explore **on-chain governance models** where token holders can vote on key decisions. This would allow the community to **officially guide the future of ZRC** in a decentralized way

Legal Disclaimer

Not Financial or Investment Advice

ZRC ZeroCoin is a **decentralized cryptocurrency project with no central authority**. This document is for **informational purposes only** and does not constitute financial, investment, or legal advice

No Guarantees of Value

ZRC ZeroCoin has **no inherent monetary value** and is subject to **market fluctuations**. Users should conduct their own research and **exercise caution when engaging with any cryptocurrency**

Regulatory Compliance

Cryptocurrency regulations vary by country. **Users are responsible for ensuring their compliance with local laws** before acquiring, holding, or transacting with **ZRC ZeroCoin**

No Liabilities

The **ZRC ZeroCoin** team, developers, and community members **are not responsible for any losses, damages, or financial impacts** resulting from the use of **ZRC**. Users engage at their own risk
